

HUN 4446
NUTRITION AND DISEASE - PART 2
SPRING 2017 - Section 2C06

Instructor: Gail P. A. Kauwell, PhD, RDN, LDN, FAND
Department: Food Science & Human Nutrition (FSHN)
Office: FSHN Building, Room 265
Phone: 352-294-3717
Email: gkauwell@ufl.edu
Office hours: Wednesday 12:30 - 2:30 PM by appointment*

Thursday 1:30 - 3:00 PM (walk-in)

*Call Mindy Edwards at 352-294-3700 to schedule an appointment. If you cannot make my regularly scheduled or walk-in office hours, you may e-mail me or call me directly to schedule an appointment.

Teaching assistant: Kelly Johnston and Rachel Savelle
Email: kelmj@ufl.edu; rsavelle525@ufl.edu
Office hours: Kelly: Fridays 1:00-3:00 PM; Rachel Mondays 1:00-3:00 PM
Location: 232 FSHN Building
Class meeting time: TUE: 8:30 - 10:25 AM; THURS: 9:35 - 10:25 AM
Attendance: Required
Location: G086 McCarty Hall B
Credits: 3

Course Description and Prerequisites: Part 2 of a two-semester sequence that focuses on the biochemical and pathophysiological bases of diseases/conditions that require nutrition support/medical nutrition therapy. Prerequisites: HUN 4445; BCH 3025 or BCH 4024; APK 2105C or PCB 4723C.

Course Goals/Competencies: Upon completion of this course, students should be able to:

1. Describe the risk factors, etiology, symptoms, clinical findings, and pathophysiology associated with diseases/conditions covered in this course.
2. Describe the diagnostic tests/procedures and the intervention strategies used in the treatment of diseases/conditions covered in this course.
3. Evaluate the impact of selected food/nutrient-drug interactions on nutritional status/drug efficacy and recommend appropriate intervention strategies.
4. Relate the theoretical bases for nutrition/medical intervention strategies with the anatomical, physiological, and/or biochemical changes that occur in diseases/conditions covered in this course.
5. Identify examples of nutrient-gene interactions, apply concepts related to nutrigenetics/nutrigenomics and epigenetics, and describe the potential impact of genomic and epigenomic research on nutrition and medical practice.
6. Identify appropriate recommendations for the management of patients with diseases/conditions covered in this course.

Required Materials:

- i>clicker2© Remote Response Device (“clicker”): Available for purchase at the UF Bookstore (purchase from cashier) OR a Smartphone/iPhone/laptop/iPad/tablet that is compatible with the i>clicker© REEF response system. (See below for more information.)
- HUN 4446 Course Notes: Target Copy 1412 West University Avenue, Gainesville, FL (or print your own copy of the objectives and the PowerPoint slides for each unit of study from Canvas; see below for access information)
- Course information and materials posted on Canvas.

Recommended Materials:

- *Nutrition Therapy and Pathophysiology* (3rd edition) by Nelms, Sucher, Lacey and Ross, 2016.

How to Access Canvas:

- Access requires a Gatorlink account. If you need to establish a Gatorlink account, go to <http://identity.it.ufl.edu/process/gatorlink/create-account/>.
- Once you have created a Gatorlink account, access e-Learning support services home page at <http://lss.at.ufl.edu>. Select “e-Learning in Canvas”. Log in using your Gatorlink ID. HUN 4446 should be listed under “courses”. If you are unfamiliar with Canvas, information can be found under the “help” tab.

Class Attendance and Demeanor: Students are expected to attend all classes, to bring their i>clicker2© “clicker” or Smartphone/iPhone/laptop/iPad/tablet computer to every class, to arrive on time, and to leave when dismissed by the instructor. Students are expected to show courtesy to their classmates and instructor by muting electronic devices and refraining from using a computer or any other type of personal electronic device for any purpose other than taking notes, viewing PowerPoint slides being discussed in class, or using them in place of the clicker device to answer questions. Students also are expected to refrain from engaging in personal conversations during class.

Absences and Make-Up Work

Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>. (See below for more details.)

Student Evaluation: Three tests, a final exam, one assignment, in class participation, and 6 online quizzes will be used to evaluate student performance. Tests/exams and quizzes must be taken as scheduled. University approved activities that conflict with exams should be brought to the instructor’s attention in advance so that alternative arrangements can be made. An unexcused absence from a test will result in a score of “0” unless there are unavoidable extenuating circumstances (subject to my discretion) that can be documented to my satisfaction. Extenuating circumstances include unavoidable, unplanned situations such as illness (chart note from physician or clinic; vague notes such as “was seen” are not acceptable); family death (dated obituary); accident (police report); etc. Failure to complete a quiz within the time frame allowed will result in a grade of “0”. Extra credit projects will **NOT** be available.

Assignment: Detailed information for completing the assignment for this course will be posted on Canvas/distributed separately. The assignment (submit a hardcopy of the assignment only) is due **by 5:00 PM on March 23, 2017**. Failure to submit the assignment on the designated due date will result in a grade of “0”.

Quizzes: Quiz dates will be announced one week prior to the date the quiz will become available. Quizzes will be administered through e-Learning/Canvas. You will have **20 minutes to complete each quiz** beginning from the time you open the quiz. Quizzes will be available for you to take for a 24 hour period (from 2:00 PM on day the quiz is announced until 1:59 PM the following day). The lowest quiz score (or missed quiz) will be dropped.

In Class Participation: In class participation will be evaluated using the i>clicker2© (“clicker”) or via your Smartphone/iPhone/laptop computer/iPad/tablet using the i>clicker© REEF response system. I have selected to use the i>clicker© system for several reasons, all of which I hope will make for a better learning experience for you, as well as provide you with the opportunity to improve your performance in the class. (See separate handout for details.)

- We will practice using the clickers during the first few class periods. I will officially begin recording response card (“clicker”) responses that count toward your final grade **beginning January 24, 2017**.
- Questions asked during class may include material just covered in class, material covered from previous lectures, and opinion questions or other types of “informational” questions.

- Content questions will be graded, with partial credit given for incorrect answers.
- Questions may be asked at any point during the class, and on some days, more than one question may be asked. You will be given a set amount of time to respond, but once the “polling time” has ended, it will not be possible to register your response so you should be sure to get to class on time and to have your “clicker” (or the device you are using with the i>clicker© app) with you and ready to use.
- A total of 44 points for the semester will be considered a perfect “in class participation” score. To allow for technical problems, failure to bring your clicker/smartphone/iPhone/laptop computer/iPad/tablet to class, clicker/smartphone/iPhone/laptop computer/iPad/tablet (i.e., dead battery; malfunction; etc.), unexcused absences, etc., I will offer a minimum of 55 points during the semester (**starting on January 24** forward). Points earned in excess of the number needed for a perfect “in class participation” score (i.e., 44 points) will count as bonus points toward your final grade. This means that you have the opportunity to earn at least 11 bonus points, in addition to the 2 bonus points I offer in exchange for completing and submitting an electronic version of your student information card (follow directions provided on e-Learning in Canvas). Depending on where you stand in the course, these extra points could improve your final grade.
- **Please note:** You are on your honor (see UF Academic Honesty Policy below) to register responses only for yourself. This means you personally must be in class and use your personal response card to register your answers. **Registering responses for someone else or having someone else register responses for you is a form of cheating.** If you are caught cheating the system, you and the other party(ies) involved will, at a minimum, forfeit all of your points for the semester, and you could be prosecuted through the Student Honor Court. If you are not caught, you will have to deal with your conscience and personal ethics, which may not seem like a big deal now, but may catch up with you some day.

Evaluation of Performance/Grades and Grade Points

For information on current UF policies for assigning grade points, see

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Performance Indicators	Points
Tests 3 @ ~82 points each (this is the average points, some tests will have slightly more or slightly less points)	246
Final Exam (~½ comprehensive, ~½ new material)	120
Assignment	40
Class Participation (out of a minimum of 55 points; points above 44 = bonus pts)	44
Quizzes (online) 6 @ ~10 points each (lowest grade dropped)	50
Total	500

Grading Scale: Grades will be posted on e-Learning in Canvas. Grades are not curved and are not negotiable.

A = 467-500 90.34-100%	A ⁻ = 450-466 90-93.33%	B ⁺ = 433-449 86.68-89.9%	B = 417-432 83.34-86.67%	B ⁻ = 400-416 80-83.33%	C ⁺ = 383-399 76.68-79.9%
C = 367-382 73.34-76.67%	C ⁻ = 350-366 70-73.33%	D ⁺ = 334-349 66.68-69.9%	D = 317-333 63.34-66.67%	D ⁻ = 300-316 60-63.33%	E = <300 <60%

Supplementary Information: Supplementary information, announcements, reminders, and critical thinking exercises will be posted on e-Learning in Canvas or the class listserv.

Academic Honesty: As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity." You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: <https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>.

Student Responsibility

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

Faculty Responsibility

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

Administration Responsibility

As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

(Source: <https://catalog.ufl.edu/ugrad/current/advising/info/student-honor-code.aspx#honesty>; accessed 07-29-15)

It is assumed all work will be completed independently unless the assignment is defined as a group project, in writing by the instructor. This policy will be vigorously upheld at all times in this course.

Software Use:

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Online Course Evaluation Process: Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at <https://evaluations.ufl.edu>. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results>.

Students with Disabilities: The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. Contact information: 0001 Reid Hall, 392-8565, www.dso.ufl.edu/drc/

Student Complaints: The following link describes the University of Florida's policy related to student complaints.

Residential Course: https://www.dso.ufl.edu/documents/UF_Complaints_policy.pdf

Campus Helping Resources: Students experiencing crises or personal problems that interfere with their general wellbeing are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

Career Resource Center	First Floor J. Wayne Reitz Union	352-392-1601	www.crc.ufl.edu	Career development assistance and counseling

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Other Information: Lecture material and information are the property of the University of Florida and the course instructor and may not be used for any commercial purpose. Students found in violation may be subject to disciplinary action under the University's Student Conduct Code. Only students formally registered for the course are permitted to attend lectures and take quizzes/tests.

Email: Students are required to check their email account(s) daily (at least Monday through Friday) and respond to course/program related requests, inquiries, etc. in a timely manner.
