

Syllabus for BCH 3025 – Fundamentals of Biochemistry

Credits and Section	4 Credits - Section 7215
Course Instructor	Peggy R. Borum, Ph.D., Professor of Human Nutrition, Room 409 FSHN Bldg., prb@ufl.edu, 352-392-7553
Teaching Assistant	Jurate Lukosaityte (jurate162001@ufl.edu) is the Teaching Assistant for this class. If you have questions or need assistance from her, you should email her through E-Learning to schedule an appointment. If for some reason that does not work, her University of Florida email address is given above. Jurate is a graduate student in the Department of Food Science and Human Nutrition.
Goals	By the end of the course students should be able to: <ol style="list-style-type: none"> 1. Appreciate why the broad spectrum of biochemistry is important in medicine, agriculture, pharmaceuticals, and ethics; 2. Understand the basis for the molecular structure of different biochemical compounds; 3. Understand the biosynthesis of basic biochemical “building blocks”; 4. Understand the conformation, dynamics, and function of proteins; 5. Understand the generation and storage of metabolic energy; 6. Understand overall aspects of the integration of metabolic processes; 7. Have developed the skills to accumulate, integrate, and apply biochemical information in their own field of study
Lehninger Principles of Biochemistry by David L. Nelson and Michael M. Cox, Sixth Edition, 2013	The required text for BCH 3025 is Lehninger Principles of Biochemistry by David L. Nelson and Michael M. Cox, Sixth Edition, 2013. The publisher website for the text is at http://bcs.whfreeman.com/lehninger6e/default.asp?s=&n=&i=&v=&o=&ns=0&uid=0&rau=0 . It contains summaries for each chapter and some electronic media that may be helpful to you.
Course Overview	The goal of the instructor is to organize the course to help each student achieve each of the above goals. Each chapter covered by the exams is presented in different formats. The textbook is your main source of information. For those who prefer to read the lecture, PowerPoint slides including the lecture notes can be downloaded. For the more audio learners there are narrated lectures with slides. Each student thus has the material in several formats and can cover the material at a pace that is most comfortable for the individual. On average two to four chapters will be introduced each week of the course. Short quizzes will be given as many of the chapters are introduced and will comprise 20% of the course grade. The quizzes are an incentive to read the chapters as they are scheduled for the course and to give a “preview” of the exam to come. Extra credit opportunities will be provided in the form of an optional term paper.
Organization Of Modules	The chapter modules are organized by week with Monday being the first day of the week and Friday being the last day of the week.

Syllabus for BCH 3025 – Fundamentals of Biochemistry

Suggestions For Use Of Module Resources	You can use the video summary as the first step and the last step of your study plan. Viewing the video summary as an introduction provides you with an overview of the material to come. Viewing it again as the last step of your studying allows you to ask yourself if you feel comfortable with all the material. You should read the chapter in your textbook which is the source of all the content details. The course instructor has outlined the most important information in each chapter and made it available to you as a PowerPoint with audio and as a PowerPoint with notes. This material very closely follows the textbook in order to provide audio learners and visual learners with the material in the best format for them. This format is more similar to a “live lecture”, but can be viewed at your convenience during the week. You can also review any slides that seemed to go too fast the first time you viewed them.
Beyond the Textbook	Each module has a section “Beyond the Textbook” for those students who wish to venture beyond the material in the textbook. Some of the material is taken from http://bcs.whfreeman.com/lehninger/default.asp . The remaining material is taken from journals, websites, and other textbooks.
Instructor and Teaching Assistant Office Hours	<p>Instructor Office Hours: The course instructor will check email on E Learning approximately every 24 hours during the school week in an effort to respond quickly to individual student questions. Walk in office hours are Tuesday at 4:00 – 5:00PM and Friday at 4:30 – 5:30 PM in Room 409 in the Food Science and Human Nutrition Building.</p> <p>TA Office Hours: Teaching Assistant will check email on ELearning approximately every 24 hours during the school week in an effort to respond quickly to individual student questions. Individual appointments may be scheduled by emailing her through E-Learning.</p>
Exams	There will be four exams, 70 points each, for a total of 280 points. All exams are cumulative, in that information gained in previous sections will be needed to answer correctly and completely, but questions specifically on earlier concepts will not be asked. Each exam will consist mainly of multiple choice questions, but other types of questions may be included.
Major Exams	Students must take the 4 major exams online via ProctorU (https://www.proctoru.com/portal/ufl/index) between 7:00 AM and 10:00 PM on the day designated in the class schedule. An average of 1 minute will be allowed for each multiple choice question (usually 35 questions).
Weekly Quizzes	A short quiz on the topic of each module covered during the week must be completed online before the date and time designated in the class schedule in the syllabus. It is important to closely follow the deadlines listed in the class schedule in the syllabus. Quizzes will comprise 80 points or 20% of your grade.
Makeup Exams and Quizzes	There are no regularly scheduled makeup exams, quizzes, and no dropped scores. Truly extraordinary circumstances will warrant some accommodation, but requests for makeup exams and quizzes for other than personal or immediate family emergencies will not be considered. Any allowance will be arranged on a case – by – case basis.

Syllabus for BCH 3025 – Fundamentals of Biochemistry

Academic Honesty	<p>As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: <i>“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”</i> You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: <i>“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”</i></p> <p>None of the quizzes or exams is open book and you are not allowed to receive assistance from anyone during any quiz or exam. It is assumed that you will complete all work independently in each course. Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: http://www.dso.ufl.edu/SCCR/honorcodes/honorcode.php.</p>
Journal Club PowerPoint	<p>The required Journal Club PowerPoint will contribute 40 points or 10% of your grade. Each student is an author of a Journal Club PowerPoint and an editor of another. The points will be obtained as follows:</p> <ul style="list-style-type: none"> • Step 1 – Post citation of article • Step 2 - Author’s outline of journal club presentation – 5 points • Step 3 - Author’s draft of journal club PowerPoint – 5 points • Step 4 - Author posts draft journal club for editor after assignment to group – 2 points • Step 5 - Editor’s critique of the draft journal club PowerPoint – 8 points • Step 6 - Author’s final PowerPoint presentation for journal club – 20 points <p>It is important to note that each step builds on the previous steps. If you miss a step, you do not get points for that step and you cannot continue the assignment and thus lose all points for the remaining steps. More information (including deadlines) is provided for the assignment in the document entitled Journal Club with a link on the Course Materials page of the course site.</p>
Extra Credit Paper	<p>The extra credit assignment is an opportunity for students to earn up to 25 points to add to their exam scores/grades. By no means is it mandatory.</p>
Extra Credit Paper	<p>One should develop a 10-20 page, double-spaced research-based paper on an assigned topic (Example: Folate and neural tube defects). Do not forget that this is a biochemistry class and the paper should focus on the biochemical aspects of the topic. The paper should be a scientific paper designed for an audience that has completed a biochemistry class. The paper should not be designed for the general public or read like a website. Your paper should include an abstract, an introduction, a body, a conclusion, and a list of "References." You should define the problem/issue, indicate its significance, and review relevant literature that includes evidence that supports the arguments for and against the problem/issue.</p>

Syllabus for BCH 3025 – Fundamentals of Biochemistry

	<p>You must document evidence with in-text citations, according to the format used by the Journal of Nutrition.</p> <p>Please be sure to make your ideas, thoughts, arguments, theories, facts, or evidence very clear to the reader. Peer-reviewed information is the preferred source. References from Internet sources should be used cautiously. If you copy a phrase or a sentence from another source you must quote that source. Using the words of someone else is simply a form of academic dishonesty and will not be tolerated. The paper should be prepared solely for this class. The TurnItIn tool will be used to evaluate the originality of the paper as part of the grading process. As a result of completing the registration form at the University of Florida, every student has signed the following statement: "I understand that the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action, up to and including expulsion from the University."</p>
<p>Extra Credit Paper</p>	<p>Even though one has the opportunity to gain up to 25 points on this paper, by no means does this imply that all papers submitted will be given a credit of 25 points. In fact, if the reader gets the impression that the paper submitted does not include intelligent, well-organized and thorough literature review discussions on the topic, there is a possibility that no points will be given. If the paper is not of adequate quality and does not include the criteria listed above, the author will be deducted 5 points from the total grade earned in class. To be graded, the paper must be turned into the Extra Credit Paper Assignment tool on the BCH 3025 homepage as a WORD document attachment. Any papers submitted after 12 Noon on July 13, 2015 or not submitted, will result in 0 points (your paper will not be graded) in addition to a reduction of 5 points from the student's total score earned in class.</p>
<p>Extra Credit Paper Procedures</p>	<p>If you are interested in this extra credit assignment, go to the Extra Credit Papers Folder on the E-Learning at UF BCH 3025 home page and choose one of the topics. To complete the contract, visit the Extra Credit page - then open the "Extra Credit Topics" - click on your topic and use the sign-up sheet in the Discussions section of the course website. The sign-up sheet is the only official mechanism for contracting for the Extra Credit Paper. No contracts can be completed after 12 Noon June 05, 2015. Only 1 person may request a topic.</p>
<p>Extra Credit Paper</p>	<p>If you would like to write an extra credit paper on a topic not listed, you may submit a request to the instructor via email in E-Learning at UF. The request must be submitted before 12 Noon, June 03, 2015. The request must be submitted as an E-Learning email and must consist of a 1 page summary of the paper you wish to write. The summary must be sent as a Word document attachment to the email requesting the topic. If approved, the topic will be added to the list of topics in E-Learning at UF and you will be assigned the topic.</p>
<p>Extra Credit Paper</p>	<p>Submit your final draft to the Assignments page of E-learning where it says "Extra Credit Paper. Papers must be posted before 12 Noon, July 13, 2015.</p>
<p>Software Use:</p>	<p>All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because</p>

Syllabus for BCH 3025 – Fundamentals of Biochemistry

	such violations are also against university policies and rules, disciplinary action will be taken as appropriate.
Campus Helping Resources	<p>Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.</p> <ul style="list-style-type: none"> • <i>University Counseling & Wellness Center, 3190 Radio Road, 352-392-1575, www.counseling.ufl.edu/cwc/</i> Counseling Services Groups and Workshops Outreach and Consultation Self-Help Library Training Programs Community Provider Database • <i>Career Resource Center, First Floor JWRU, 392-1601, www.crc.ufl.edu/</i>
Services for Students with Disabilities	<p>The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation (0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/)</p>
Distance Courses	<p>Each online distance learning program has a process for, and will make every attempt to resolve, student complaints within its academic and administrative departments at the program level. See http://distance.ufl.edu/student-complaints for more details.</p>
General Comments	<p>It is important that you be familiar with the use of Sakai. I suggest that you review the information at https://lss.at.ufl.edu/help/Student_Faq</p> <p>If there is a problem with Sakai on the University of Florida end, it is the instructor's problem to fix. If there is a problem with a PC, an internet connection, or errors in the use of Sakai, it is not the instructor's problem to fix and is not a reason for a make-up exam. If you feel that there is a problem during an exam, quiz, or assignment on the UF end, it is important to get documentation that the problem was on the UF end from the HELP desk at 352-392-HELP.</p>
Online Course Evaluation Process	<p>Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.</p>

Syllabus for BCH 3025 – Fundamentals of Biochemistry

Grades and Grade Points	There will be no curve in this course. Final grades will be simply calculated from the total accumulated points. For information on current UF policies for assigning grade points, see https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx
--------------------------------	---

Final Grade	Total Points
A	373-400
A-	360-372
B+	348-359
B	333-347
B-	320-332
C+	308-319
C	293-307
C-	280-292
D+	268-279
D	253-267
D-	240-252

Syllabus for BCH 3025 – Fundamentals of Biochemistry

Course Schedule

<u>Week 1</u>	
Monday- May 11, 2015	Introduction to course; – Module 1 (Chapter 1 in textbook) - The Foundations of Biochemistry
Wednesday May 13, 2015	Module 2 (Chapter 3 in textbook) - Amino Acids, Peptides, and Proteins
Friday – May 15, 2015	Quizzes for Module 1 and Module 2 must be completed online before 12 Noon
<u>Week 2</u>	
Monday – May 18, 2015	Module 3 (Chapter 5 in textbook) - Protein Function
Wednesday, May 20, 2015	Module 4 (Chapter 6 in textbook) – Enzymes
Friday – May 22, 2015	Quizzes for Module 3 and Module 4 must be completed online before 12 Noon Authors must submit journal club article before 3 PM to the Assignments page.
<u>Week 3</u>	
Monday – May 25, 2015	Memorial Day Holiday
Tuesday – May 26, 2015	Module 5 (Chapter 7 in textbook) - Carbohydrates and Glycobiology
Wednesday, May 27, 2015	Quiz for Module 5 must be completed online before 12 Noon
Thursday, May 28, 2015	Exam 1 multiple choice questions and Exam 1 short answer questions on Modules 1, 2, 3, 4, and 5 must be completed online via ProctorU between 7:00 AM and 10:00 PM.
Friday – May 29, 2015	Authors must submit an outline of the journal club presentation before 3 PM to the Assignments page for grading.

Syllabus for BCH 3025 – Fundamentals of Biochemistry

<u>Week 4</u>	
Monday – June 01, 2015	Module 6 (Chapter 8 in textbook) - Nucleotides and Nucleic Acids
Wednesday, June 03, 2015	Module 7 (Chapter 9 in textbook) - DNA-Based Information Technologies Deadline to request an extra credit paper on a topic not listed
Friday – June 05, 2015	Quizzes for Module 6 and Module 7 must be completed online before 12 Noon - Extra Credit Contracts due before 12 Noon.
<u>Week 5</u>	
Monday – June 08, 2015	Module 8 (Chapter 10 in textbook) - Lipids
Wednesday, June 10, 2015	Module 9 (Chapter 11 in textbook) - Biological Membranes and Transport
Friday – June 12, 2015	Quizzes for Module 8 and Module 9 Chapter 11 must be completed online before 12 Noon
<u>Week 6</u>	
Monday – June 15, 2015	Module 10 (Chapter 12 in textbook) - Biosignaling
Wednesday, June 17, 2015	Quiz for Module 10 must be completed online before 12 Noon
Thursday – June 18, 2015	Exam 2 on Modules 6, 7, 8, 9, and 10 must be completed online via ProctorU between 7:00 AM and 10:00 PM.
Friday – June 19, 2015	Authors must submit a draft of journal club PowerPoint by 3PM to the Assignments page for grading.
<u>Week 7</u>	
Monday – June 22 – 26, 2015	Have a fun and safe break!

Syllabus for BCH 3025 – Fundamentals of Biochemistry

<u>Week 8</u>	
Monday – June 29, 2015	Module 11 (Chapter 13 in textbook) - Bioenergetics and Biochemical Reaction Types
Wednesday, July 01, 2015	Module 12 (Chapter 14 in textbook) - Glycolysis, Gluconeogenesis, and the Pentose Phosphate Pathway
Thursday – July 02, 2015	Quizzes for Module 11 and Module 12 must be completed online before 12 Noon Authors must post a draft of journal club PowerPoint by 3PM to discussion board for editor.
Friday, July 03, 2015	Independence Day Holiday observed
<u>Week 9</u>	
Monday – July 06, 2015	Module 13 (Chapter 15 in textbook) - Principles of Metabolic Regulation
Tuesday – July 07, 2015	Module 14 (Chapter 16 in textbook) - The Citric Acid Cycle
Wednesday, July 08, 2015	Module 15 (Chapter 17 in textbook) - Fatty Acid Catabolism
Friday – July 10, 2015	Module 16 (Chapter 18 in textbook) - Amino Acid Oxidation and the Production of Urea Quizzes for Module 13 , Module 14 , and Module 15 must be completed online before 12 Noon Editors must post critique of the draft journal club PowerPoint by 3 PM to the discussion board and submit copy to the Assignments page for grading.
<u>Week 10</u>	
Monday – July 13, 2015	Module 17 (Chapter 19 in textbook) - Oxidative Phosphorylation and Photophosphorylation Extra Credit Papers due before 12 Noon
Wednesday, July 15, 2015	Quizzes for Module 16 and Module 17 must be completed online before 12 Noon
Thursday, July 16, 2015	Exam 3 on Modules 11, 12, 13, 14, 15, 16, and 17 must be completed online via ProctorU between 7:00 AM and 10:00 PM.
Friday – July 17, 2015	Module 18 (Chapter 21 in textbook) - Lipid Biosynthesis

Syllabus for BCH 3025 – Fundamentals of Biochemistry

<u>Week 11</u>	
Monday – July 20, 2015	Module 19 (Chapter 22 in textbook) - Biosynthesis of Amino Acids, Nucleotides, and Related Molecules
Wednesday, July 22, 2015	Module 20 (Chapter 23 in textbook) - Hormonal Regulation and Integration of Mammalian Metabolism
Friday – July 24, 2015	Quizzes for Module 18 and Module 19 must be completed online before 12 Noon Authors must submit the final PowerPoint presentation for Journal Club by 3 PM to the Assignments page for grading.
<u>Week 12</u>	
Monday – July 27, 2015	Module 21 (Chapter 24 in textbook)- Genes and Chromosomes
Wednesday, July 29, 2015	Module 22 (Chapter 25 in textbook)- DNA Metabolism
Friday – July 31, 2015	Module 23 Chapter 26 - RNA Metabolism Quizzes for Module 20 , Module 21 , and Module 22 must be completed online before 12 Noon
<u>Week 13</u>	
Monday – August 03, 2015	Module 24 (Chapter 27 in textbook) - Protein Metabolism
Tuesday, - August 04, 2015	Module 25 (Chapter 28 in textbook) - Regulation of Gene Expression
Wednesday, August 05, 2015	Quiz for Module 23 , Module 24 , and Module 25 must be completed online before 12 Noon
Thursday – August 06, 2015	Exam 4 on Modules 18, 19, 20, 21, 22, 23, 24, and 25 must be completed online via ProctorU between 7:00 AM and 10:00 PM.
