There will be 7 online quizzes worth 5 points each. The lowest quiz score will be dropped for a total of 30 points. Quizzes will be available for 72 hours after the last scheduled lecture for each life cycle stage. The questions used for the quizzes are similar in format and style to those used on the exams. No make-up quizzes will be available.

There will be 2 exams. No exams will be administered after the class takes the exam. If you miss an exam due to illness or emergency you may be allowed to take a cumulative make-up exam at the end semester if you have proper documentation. Bring a No. 2 pencil and a picture ID to the exam. The instructor will provide students with a simple 4-function calculator at each exam. Students may not use their own calculator.

No old exams have been released for this course. Reviewing exams from previous semesters is not allowed. Exam questions are taken from material in lectures, the textbook, and assigned readings. It is essential that you keep up with the reading assignments and take good notes. You will only have two weeks from the date an exam was administered to refute exam questions or scores.

ASSIGNMENTS:
Two assignments will be required worth 40 points in total. Detailed information for completing each assignment and grading rubrics are included on E-Learning in Canvas. Assignments are due on or before the date given.
Assignments not received by 11:59 p.m. on the due date will be considered late. Three points will be deducted for every day late.

**PARTICIPATION:** Four in-class critical thinking exercises will be completed in small groups for 10 participation points. One point will be given for being in class and participating in each of the 4 exercises (4 points total) and 6 points will be from peer grades for your contribution to the group discussions.

Academic Honesty: As a student at the University of Florida, you have committed yourself to upholding the Honor Code, which includes the following pledge: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” It is assumed that you will complete all work independently in this course unless I give explicit permission for you to collaborate on course tasks (e.g. in-class assignments). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code.

Software Use: All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Services for Students with Disabilities: 0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/ The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.

University of Florida Complaints Policy: The University of Florida believes strongly in the ability of students to express concerns regarding their experiences at the University. The University encourages its students who wish to file a written complaint to submit that complaint directly to the department that manages that policy. A student who is unsure as to the official responsible for handling his or her particular complaint may contact the Ombuds office or the Dean of Students Office. For complaints that are not satisfactorily resolved at the department level or which seem to be broader than one department, students are encouraged to submit those complaints to one of the following locations: Ombuds: http://www.ombuds.ufl.edu/, 31 Tigert Hall, 352-392-1308. The purpose of the Ombuds office is to assist students in resolving problems and conflicts that arise in the course of interacting with the University of Florida. By considering problems in an unbiased way, the Ombuds works to achieve a fair resolution and works to protect the rights of all parties involved. Dean of Students Office: http://www.dso.ufl.edu/, 202 Peabody Hall, 352-392-1261. The Dean of Students Office works with students, faculty, and families to address a broad range of complaints either through directly assisting the student involved to resolve the issue, working with the student to contact the appropriate personnel, or referring the student to resources or offices that can directly address the issue. Follow up is provided to the student until the situation is resolved. Additionally, the University of Florida regulations provide a procedure for filing a formal grievance in Regulation 4.012: http://regulations.ufl.edu/regulations/uf-4-student-affairs/
