NUTRITIONAL SCIENCES SEMINAR (HUN 6938)
Spring Semester 2019
3:45-4:45 p.m. Thursdays; Room: McCarty D G001
THEME: Nutrient Toxicity, Functional Foods and Supplements

Coordinator: Robin da Silva, Ph.D.
Office: 449A FSHN Bldg.
Office Hrs: Monday and Wednesdays from 2:00-3:00 p.m.
Contact: Phone: 294-3751; e-mail: robindasilva@ufl.edu

Course Purpose: The primary function of the seminar course is to provide students with the opportunity to gain experience in discourse of nutritional and biomedical research. Students will have the opportunity to display their own research and/or review peer-reviewed scientific research. Highly regarded visiting speakers will be scheduled to enrich student and faculty experience.

Grading Policy:

Attendance and Participation: All FSHN graduate students are required to attend seminar each term. Food Science (FS) students normally attend FS seminar and HUN students attend Nutritional Sciences seminar. If there are class conflicts, students may attend the alternate seminar series. Students are expected to participate in the discussions and to provide fellow students with written evaluations of their presentations. Forms will be provided at each seminar.

Seminar grades are based upon faculty evaluations and average of the grades from the departmental evaluation form (attached) and upon attendance. All faculty and peer evaluation forms will be returned to the student speaker, usually within one week after the seminar. Attendance is recorded each week and is taken into account in the grade given when the student takes seminar for credit. If absent from a seminar, a petition for an excused absence may be made to the coordinator. If there is a conflict and more than one absence occurs, the student must submit a petition for an excused absence to the Chair of the FSHN Graduate Committee. Students who have more than three unexcused absences over the course of their matriculation will be referred to their Supervisory Committees for appropriate action and the final seminar grade will be lowered by a minimum of one letter grade.

Seminar Presentations:

***You must register for one credit of HUN 6938 each semester in which you will present.***

M.S. thesis degree students will present one 20-minute seminar plus 5-minute discussion on a topic that covers their research work. M.S. non-thesis degree Nutritional Science students must present a 30-minute seminar plus 5-minute discussion on the theme topic for that semester. This is typically given in the last semester prior to graduation.

Except for the final (dissertation) seminar, Ph.D. students must present, in a colloquium format, a 30-35 minute seminar on a theme topic which is assigned at the beginning of the semester. This presentation should be on one or two prominent papers from the literature. Alternatively, the student may elect to make a one-time presentation of their doctoral dissertation proposal in lieu of a theme seminar that year. The final seminar of the student’s program must be a 40-45 min presentation of the completed dissertation research and typically occurs in their final semester prior to graduation.
FSHN Dept. Graduate Student Seminar Policies

1. Students who plan to give a seminar must contact the Seminar Coordinator by midterm of the semester prior to the semester of presentation. The student should define whether the seminar will be the final research seminar (thesis M.S. or Ph.D.) or a theme seminar (non-thesis M.S. and Ph.D.), and also request dates for the presentation. Students must obtain permission from their Major Professor to schedule their final (research) seminar. Note: Students with special circumstances or conflicts, if arranged prior to the coordinator finalizing the seminar schedule, may receive a grade of Incomplete.

2. a. Ph.D. students who cancel the final research seminar will be required to give a theme seminar in its place as defined in the FSHN Department Graduate Student Handbook. The student will then be required to reschedule his/her final research seminar for a subsequent semester.

b. An M.S. student who wishes to cancel the final research seminar after an agreed upon date in the seminar schedule will be required to either give a theme seminar, or an update of their research. The student must schedule a final thesis research seminar for a subsequent semester.

3. Theme seminar papers must be pre-approved by the Seminar Coordinator.

Further Information:

Abstract

Abstracts should be posted one week in advance of the scheduled presentation. Please email Ms. Marianne Mangone (359 FSHN) your abstract in Word. She will send out email announcements and also post copies in designated locations. Please ask your major professor to read over the abstract and revise before submitting to Ms. Mangone. The abstract counts 10% of your seminar grade.

Theme Article

At least one week prior to your presentation date, email the theme article by PDF to Marianne. However, email me before that time to first obtain my approval of your article.

Visuals

PowerPoint is the preferred method for presentations. It is wise to carefully proof your slides for readability, color, etc. Perhaps ask a colleague or your advisor to review the slides. It is imperative that you arrive at the seminar room well in advance of the start time to make sure that everything is in working order.

Evaluation: Forms are below for your review. No need to print them out, I will bring copies each week.

PEER EVALUATION OF SEMINAR

SPEAKER_____________________________ DATE_________________

Please evaluate the speaker in each of the following areas. Comments should be constructive and specific. Print your name below so that it is legible. If a section is "not applicable" for this seminar, put N/A in the blank area. This sheet with your comments and your name will be given to the speaker.

Content, quality and appropriateness of the abstract:

Thoroughness and appropriateness of the literature review:

Appropriateness and depth of the discussion of methods and procedures:

Interpretations of data and validity of conclusions:

Quality of presentation, including visuals, speech, organization and timing:

Educational value or scientific merit:

Response to questions:

Overall impression:

MEMORANDUM

TO: Students Presenting Seminars

FROM: Robin da Silva, Ph.D., Nutritional Sciences Seminar Coordinator

Please complete the following information and return to me as soon as possible. I use this information for your introduction at seminar.

1. Title of Seminar

2. Short autobiography, including:

   Birthplace

   Degree(s), & year conferred, & institution

   Major

   Minor

   Date entered UF

   Advisor

3. Anything else you think is appropriate for your introduction.
