Week 13:

Assignments
Assignments are due on the dates indicated on the syllabus. Late assignments will be penalized 10% for each day late for up to 5 days including weekends.

**Nutrition education toolkit:**
*Goal:* Over the course of the semester, in a group, develop a toolkit that is culturally appropriate for the target audience

**Learning Objectives:**
1. Expand knowledge in conducting a needs assessment
2. Create overall goal and learning objectives of the nutrition education toolkit
3. Improve teamwork and professional skills

Create a toolkit: This semester, we will be revising/developing an older nutrition curriculum that will be used in Extension. We will be teaming up with a faculty from FSHN, Dr. Dahl. The goal will be to present this at an extension conference in Florida and have it published will ALL your names on there. You will be grouped to work on different aspects of the curriculum.

Throughout the course, you will submit aspects of the tool kit for feedback prior to your presentation and your final tool kit submission in week 16. The toolkit needs to be creative and contain the following information:

a. Summary of Needs Assessment: Based on the data analysis of your population, include at least 5 bullet points of your main findings. You will need to include the main issue you are hoping to address through your toolkit.

b. Goal and learning objectives: Develop at least 1 goal and 2 learning objectives for one to achieve that goal

c. Materials: Provides pictures and other information about what is included in the toolkit and rationale for
them.

d. Final proposal: This proposal needs to be at minimum 5 pages (double-spaced), including revised goal/learning objectives, needs assessment, rationale for the learning theory used. A minimum of 10 references included, but do not count in the page limit.

e. Presentation: In class, present your toolkit.

f. Team evaluation: Evaluate your peers that you worked with on the nutrition education toolkit.

**Attendance Policy, Class Expectations, and Make-Up Policy**

Per University Policy, attendance is expected at all class sessions. When an absence does occur, the student is responsible for the material covered during the absence. When possible, the student should notify the instructor in advance of an anticipated absence. Dr. Andrade will grant make-up privileges (when possible) to students for properly verified absences due to illness, emergency, or participation in an official University activity. Excused absences must be consistent with university policies in the Graduate Catalog and require appropriate documentation. Additional information can be found in Attendance Policies.

**Students Requiring Accommodations**

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the Disability Resource Center. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Course Evaluation**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing online evaluations via GatorEvals. Students will be notified when the evaluation period opens, and can complete
evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students here.

University Honesty Policy
UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Recording in class
Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session. Publication without permission of the instructor is prohibited.

To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Software Use
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see the Notification to Students of FERPA Rights.
