Course Description: Experience the lifestyle and cuisine of Ikaria, Greece – one of five Blue Zones. As a Blue Zone, the people of Ikaria live decades longer, healthier lives than average Americans. In fact, with such a high density of centenarians, Ikaria is also known as the place where “people forget to die” with such a high density of centenarians. Experience this Greek culture situated on an island in the Aegean Sea through hands on cooking lessons, taste tests, and guided tours of the production of Ikarian commodities such as wine, honey, and cheese during a one-week study abroad experience combined with on-campus learning experiences and activities. The on-campus learning experiences are designed to make students aware of how their current lifestyle impacts longevity and to help prepare students for the study abroad experience. Students also will have the opportunity to hear presentations on research regarding the purported health benefits of various ingredients used to prepare Ikarian cuisine and teas, including wild herbs and greens found on a foraging hike.

Objectives:

- Evaluate the strength of the evidence for the Ikarian lifestyle in terms of disease risk reduction and longevity.
- Explore the significance of local/regional production of food in Ikaria and compare it to the US.

- Develop culinary skills and a basic understanding of food preparation techniques used to create Ikarian cuisine.
- Compare and contrast the food habits, methods of food preparation, the types and availability of food products/ingredients, and the attitudes toward food and food production of Ikaria to those typical in the US.
- Prepare a traditional Ikarian dish using a recipe from an Ikarian cookbook.
- Determine life expectancy based on current lifestyle and write a report on recommended changes to increase longevity based on the Blue Zones True Vitality Test.
- Appreciate the differences and similarities between Ikarian and American culture and cuisine.

Class Attendance and Demeanor: Students are required to attend all classes, to arrive on time and to leave when dismissed by the instructor. Students are expected to show courtesy to their classmates and instructor by turning cell phones/smart phones/pagers, etc. off before the class period begins and refraining from engaging in conversations during class unless directed to do so by the instructor.

Study Abroad Experience Attendance and Demeanor: Students are required to attend all cooking sessions, guided tours, meals, and other planned excursions, and to act and dress in an appropriate manner with the goal of representing the University of Florida well. Students are expected to be prompt for all sessions and departure/meeting times. Students are expected to show courtesy to their classmates, instructors, guides, and others. While use of electronic devices will be necessary during the trip to take photos, document information, etc., students should refrain from the use of these during presentations, discussions, cooking sessions (except to take photos), and other times as noted by the course leaders.

Due date: Short discussion on May 24

Get inspired about Greek culture and history by watching one of the following movies. (While

you are welcome to watch as many of the films as you like, you will choose the films in class so that two students will be reporting on any one film except for one film on which three students will report.) Be prepared to give a synopsis of the movie you watched and to share, at a minimum, what you learned about Greek history, cuisine, culture, attitudes, etc. and the impact/impression the movie had on you. Look beyond the storyline for aspects of the film that relate to the essence of Greek history, culture, and lifestyle.

Due date: Watch movie prior to departing for Greece. Discussion to be conducted in Greece.

- Zorba the Greek
- Momma Mia
- My Big Fat Greek Wedding
- My Big Fat Greek Wedding 2

Due date: Watch episodes prior to departing for Greece. Discussion to be conducted in Greece.

Older Adult/Centenarian Interview

Since Ikaria is a Blue Zone, learn to appreciate the input and perspective of older adults in the US. Interview an older adult (85 years or older) using the interview questions provided. Create a PPT presentation summarizing your interview while highlighting your favorite quotes and include a picture of your older adult. (Note: Please be sure to obtain permission to take and use a photo for your presentation. Be sure to check facility policies if you visit someone living in a long-term care type of facility.) Presentations should be 10-15 minutes.

Due date: Submit presentation prior to the beginning of class on May 24. Presentations will be given on May 24 and May 31.

Longevity Analysis and Report

Visit the Blue Zones website and take the Vitality Test (<https://www.bluezones.com>) where you will answer questions about your current lifestyle and get an estimated life expectancy. At the end of the test, you will get personalized recommendations based on the Blue Zone research to increase your life expectancy. Print your report, and write a reflection paper on how you might meet the recommendations. The report should be typed and at least two pages long (double spaced).

Due date: June 21

Electronic Journal

- Create an “electronic journal” that includes a description of activities you performed and observations you made on each day of your study abroad experience. Photos can be used to
